

Please do not allow the LPFM stations to take priority ove the current translator stations. We listen to KLOVE through a translator. All of our family is a listener of KLOVE through this same translator station and if it were to be displace by other programming the kids we would not be able to listen to this station. KLOVE is a powerful station full of truth and information that we all need on a day to day basis. There would be a lot of people who would be very upset if this went through. Please do not allow the LPFM stations to take priority or many of us will not be listening to the radio. Thanks, The Rosener Family
